

Informed consent form

Project title:

Dispatcher-Assisted Cardiopulmonary Resuscitation: A Randomised Controlled Trial of Low-Dose, High-Frequency Simulation-Based Training and the Impact on Real Out-of-Hospital Cardiac Arrest Calls.

Declaration from a participant in the research project:

I have been given written information, and I know enough about the project to say yes to participate.

I know that participating is voluntary and that I, at any point, can withdraw my consent.

I voluntarily consent to participate in the research and have been given a copy of the written information about the project for my use.

Test subject name (capital letters): _____

Date: _____ Signature: _____

Do you wish to be informed about the results of the research project?

Yes _____ (mark with x) No _____ (mark with x)

Declaration by the provider of information:

I declare that the participant in the research project has been given written information about the project.

In my opinion, sufficient information has been provided to enable participants to decide whether to participate or not.

Name of the person who provided information: _____

Date: _____ Signature: _____
